

22 February 2018

## **Circular to Growers and Shareholders**

Due to the surge in mining activity in the hinterland, the Company has experienced a critical loss of employees in the Fitter and Boilermaker trades. Expressions of interest are called from shareholders and growers who have a trade, to work in the Mackay mills to complete the maintenance program for the 2018 season.

The working arrangements are flexible and could be for one day per week up to full time employment. Applications can be made through the Company's website or by contacting the Human Resources Department on 4953 8200.
